

TELEPENDANT™

RADIO REMOTE CONTROL

LIGHTEN YOUR LOAD!

Durability, ergonomics, maximum functionality and value are built right into every *telePendant*.

- Rugged, lightweight, and chemically resistant transmitter case withstands shock and abusive environments
- Traditional pendant-style pushbutton station switches available in two- or three-speed designs
- Ergonomic, lightweight transmitter (50% lighter than its predecessor)
- *telePendant* is designed to minimize power consumption, providing one of the longest life batteries in the industry today
- Electronically synthesized frequency allows for 31 operating channels—no crystals to break
- Time Multiple Shared feature—four systems can share the same channel without interference
- 4-in-1 transmitter design supports multiple cranes via a password protected access code
- Transmitter backward compatible to most older receivers—preserving your 10K receiver investment
- Universal transmitter design eliminates the cost and hassle of tracking and maintaining a fleet of spare transmitters

RADIO CONTROL PROGRAMMER (RCP) AND USB/IR ADAPTER PACKAGE OPTION

- Allows you to program system settings and do custom output mapping from your Windows PC
- Easily create and save your system configurations for future use
- Set up a spare transmitter with minimal effort
- Program on your PC or in standalone mode via the USB/IR Adapter
- Package includes a USB drive, activation code, USB cable, and User's Guide

USB/IR Adapter

MAGNETEK RADIO REMOTE CONTROLS ARE MADE IN THE USA

FLEXIBILITY YOU WILL ONLY FIND FROM *TELEPENDANT*

- Available in up to 3 motions with 6 auxiliary functions, or 5 motions with 4 auxiliary functions using A & B select
- Two- or three-speed models available
- Backward compatible to most older 10K Telemotive receivers
- Stores four complete system configurations eliminating the cost and hassle of tracking and maintaining a fleet of spares
- Electronically synthesized frequency allows for 31 operating channels—no crystals to break
- Can be custom labeled
- Three battery options available:
 - AA batteries (standard)
 - Rechargeable lithium
 - Disposable lithium

OUR RECEIVERS DELIVER THE OPTIONS YOU WANT

- Available with various numbers of outputs
- Radio ready transfer switch connections reduce installation time
- Optional pre-wired “pigtail” available so unit can be installed and wired quickly
- Receiver design can be configured to be operated with up to eight transmitters
- Internal master relay disable switch allows you to safely test the controls “live” without moving the crane
- Fusing and suppression on all power and control lines—built for the harshest applications
- Compact receiver design installs easily in the most confined spaces
- Clear cover controller and diagnostic LEDs allow you to perform diagnostics without opening the receiver door
- Available in 12 or 24 outputs
- Synthesized RF—up to 31 operating channels
