

TELEMOTIVE INTELESMART2

RECEIVER

Our versatile Telemotive *inteleSmart2* Receiver sets a new standard in performance, dependability, and value for a variety of applications and industries. The *inteleSmart2* Receiver is compatible with all of Magnetek's innovative, durable transmitters and is available as a pre-engineered or engineered system.

VERSATILE AND CUSTOMIZABLE DESIGN

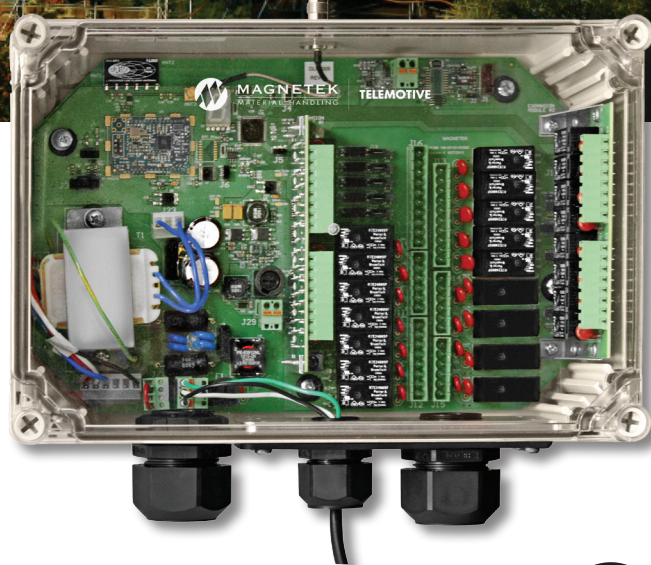

- Several frequency options including 433MHz, 900MHz, and 2.4GHz
- Available with 1 analog (0-5 VDC, 0-10 VDC, 4-20 mA, or 0-20 mA) and 5 digital (3-36 VDC or 24-250 VAC/VDC) integrated inputs
 - Analog input may be used for load cell inputs
 - Digital inputs may be used for limit switches or function enables
- Baseboard includes 14 relays with the ability to add up to two expansion modules for additional application needs

FLEXIBLE AND RELIABLE FEATURES

- Redundant machine-stop outputs allow for PL d rated applications
- Built-in CAN, Infrared, USB support
- CSA and UL508A approved
- Optional Radio Control Programmer (RCP) allows you to program settings from your Windows PC through a USB connector

IDEAL FOR USE IN A VARIETY OF APPLICATIONS

Magnetek provides innovative, cost-effective, custom-engineered radio remote controls complete with crane interface controls. These are designed to your specifications, reducing internal engineering and manufacturing costs, improving time to market, and enhancing equipment performance. We offer complete plug-and-play control packages designed specifically for your material handling equipment, manufactured and tested on our panel assembly line.

inteleSmart2 is compatible with all of Magnetek's industry-leading transmitters.

For more information, contact Magnetek Material Handling at 800.288.8178 or your local Magnetek Sales Representative.
