

# SBI PENDANT

## Pushbutton Stations

### CONTROL IN THE PALM OF YOUR HAND

Magnetek proudly offers SBI Pendant Pushbutton Stations. Featuring a lightweight, ergonomic design, SBI pendants provide optimum control and performance with less effort and fatigue than traditional pendants. This slim-line pendant rests comfortably in the palm of your hand and most models weigh under two pounds. SBI is available in 2-to-12-button configurations; single, two or three speed designs; momentary or maintained on/off; and with a variety of options and accessories. Both standard pre-assembled pendants and pre-wired pendants are available.

#### FEATURES

- Ergonomic design provides comfort and prevents fatigue
- Polycarbonate pendant enclosure is double insulated, chemically resistant and rated NEMA 1, 2, 4, 4x and 12
- Elastic, chemically resistant gaskets ensure a tight seal between enclosure front and back
- Switches are rated for 3 Amps, 250 Volts AC
- Single and two-speed button pairs feature mechanical interlocks for greater safety
- Suitable for temperatures ranging from -5°F to 150°F
- Tapered round cable entry gland provides a water tight seal, while a slide-on rubber boot provides added water protection
- On 6-to-12-button models, a shrouded knock-out hole is provided for the installation of a pilot light or horn accessory
- A pre-wired common circuit simplifies wiring of switches
- Switches are designed with visible contacts to ease wiring
- Standard units ship from stock, factory pre-wired pendants ship with minimal lead-time
- External strain relief hardware and an internal cable grip relieve tension on individual conductors and allow the pendant to be serviced while hanging on the pendant cable
